The Dolan Family Health Center is a not-for-profit primary health facility designed to provide affordable and accessible medical care to the community's medically under-served, its working poor, and indigent. Each day, family practitioners and internists care for adults and the elderly; pediatricians take care of sore throats and earaches and perform school physicals; and obstetricians provide vital prenatal services to pregnant women, helping to ensure that they deliver healthy babies.

Your purchase of a building block or brick will add to the existing endowment fund, which has been designed exclusively to serve the ever-increasing needs of under-served patients in our community. The Dolan Family Health Center Patient Care Endowment Fund provides a consistent and reliable source of annual revenue for the Center in perpetuity.

Your building blocks and bricks help to ensure the foundation of a healthy tomorrow for the people of our community.
